NEWSLETTER

JUNE 2026

Good day business owners,

After a meeting held on 2026-06-19 with water and sanitation the following dates have been confirmed:

03 August 2026 pipe replacements will commence in Assegai road.

Stellenberg, Tekstiel and Parin Roads – The water department is busy with the scoping and planning of these 3 roads. The current plan is to finalise the planning, design and procurement during the coming six months with the aim to commence with actual work after the builder's holiday which would be mid-January 2027.

A total of 2.7km of piping will be replaced in this financial year.

Ikapa has been contracted by COCT to take over from NDG who was doing the water reinstatements in the area but could not fulfil their obligations in terms of the contract. Ikapa has commenced work in the area yesterday.

The City's goal is to be able to do all water reinstatements within 30 days after a pipe burst as of 1 January 2027.

The CID AGM will be held on 26 November 2026. Should you wish to become a registered member kindly ensure that you contact the CID office timeously. Membership is free but you need to be a property owner within the CID footprint. Membership allows you to vote on issues pertaining to the CID when put to the vote.

Attached find City budget for comments as per the document indication.

Crime is still low in the area. We had one incident of theft reported to the CID. As the incident took place on private property, the suspect was able to escape before the CID could be informed. I have added the incident of possession of suspected stolen goods, not because it was stolen goods, but to show how the CID works to ensure that goods on trolleys in the area are not stolen. This happens in each instance where goods are suspected to have not been legitimately acquired.

Grass cutting will be conducted throughout the area again around 20 July 2026. Business owners are requested to ask staff not to park on grassy areas in this time as it results in such areas being skipped.

Feel free to contact the CID during office hours should you have any questions, concerns or inputs that we can enhance our service to you.

Tracy Engelke: PIID CID manager
021 932 4799

CRIME INCIDENTS FOR JUNE 2026: 1 INCIDENT

16 June 2026 @ approximately 07:44: *Alleged Theft: Stellenberg Road (not in public space)*

Whilst on patrol, a CID Responder reported that he noticed the owner of a shop in Stellenberg Road running towards Belhar Railway Station. The owner informed him that 1 x male had come into the shop, stolen a pair of socks and ran towards the railway station.

The CID control room did playback on the camera system and found the following:

At 07h41 the male entered the area with a red backpack from Belhar Railway Station.

At 07h42 the male entered the shop.

At 07h43 the male ran out of the shop over Belhar Railway Station, with the owner following shortly behind him.

The male was already out of the CID geographical area when the Responder arrived. The shop owner did not want to open a case, so SAPS was not informed.

19 June 2026 @ approximately 17:21: *Possession of Suspected Stolen Goods: Parin Road (was found to be not stolen)*

At 17h21 on Friday 19/06/2026 while monitoring the control room spotted 1 x male with a heavy-laden trolley in Parin Road and a CID Responder was dispatched. At 17h22 the Responder arrived in Parin Road and caught up with the male in front of the CID office. The Responder confirmed that the male has wooden beams that was used for building staircases on his trolley. The male alleges that he got it from the On-Site Security officer from a company in the area.

The one Responder was dispatched to the premises, while the other Responder stood off with the male, as he had changed his story and now stated he got the wood from a different premises as the one initially indicated. As the businesses were closed, the male was informed that the goods will be kept until Monday at the CID office to confirm where it came from and whether he was allowed to take it. He was showed where the CID office is and told he could visit the CID office again on Monday. On Monday 20/06/2026, it was confirmed by the CID with the client of the building that the male was allowed to take the wood. Later the male arrived at the CID office and he was given back the wood.

IMPORTANT NOTICE!

We urge everyone to be vigilant and not be on your cell phone while walking in the area.

This creates the opportunity for anybody to grab your cell phone and run, or worse, use a weapon to confiscate the cell phone from you by force

NEWS FROM COCT WEBSITE:

MYCITI FARES INCREASE ON 1 JULY TO ENSURE A SUSTAINABLE SERVICE

The City's Urban Mobility Directorate wants to notify MyCiti commuters about the upcoming annual fare increase so that households can budget ahead. The increase will take effect on 1 July 2026 and is intended to ensure the long-term sustainability of the service. Apart from real operating costs such as high fuel prices and maintenance expenditure, the City is also under pressure due to imminent funding cuts from the National Government. To date, the City has absorbed the cost of the high diesel price, unfortunately, it cannot do so any longer.

24 June 2026

The City wants to inform commuters that the MyCiti fares will increase on 1 July 2026, subject to Council approval of the draft budget at its meeting on 29 June 2026.

- The new fares take into account the overall cost of providing the service for the next twelve months, this includes all operational costs such as fuel, maintenance, parts, tyres, and so forth
- The last adjustment to the Monthly Pass fare was in 2024 with a mere R10. Increases prior to 2024 were also below sustainable levels. As such, the fare increase on 1 July is unavoidable
- The fare increases also take into account imminent funding cuts from the National Government; and to ensure the sustainability of the service over the long-term

- **The City has absorbed the costs of the exceptional increases in the diesel price since March this year. We have protected MyCiTi commuters from the devastating impact for four months already at a cost of about R9,1 million per month.**

'No sector has been unaffected by the increasing costs of fuel as a result of the ongoing crisis in the Middle East. MyCiTi is no exception. Our operational costs in providing a world class public transport offering, matched with fuel price increases have informed our current fare adjustments.

'We will however monitor the fluctuations in the fuel price and adjust our fares accordingly at the first viable opportunity in order to provide relief for our commuters while ensuring the sustainability of the service and to keep buses operating on all routes.

'It is also important to note that MyCiTi remains a subsidised public service and that the City does not make any profit in providing this to commuters. 'MyCiTi remains one of the most affordable public transport services, especially when you travel outside of the peak periods – that is before 06:45 or after 08:00 on weekday mornings; or before 16:15 and after 17:30 on weekday afternoons. The cheaper fares also apply all day on weekends, as well as on public holidays,' said the City's Mayoral Committee Member for Urban Mobility, Councillor Rob Quintas.

The fare increases are as follows:

- Between 38% to 45% for the 0 to 20km distance band
- Between 32% and 37% for longer distances
- 50% increase in the Monthly Pass from R1 000 to R1 500

'The increase in the Monthly Pass is being adjusted in line with sustainability. This pass remains good value for money for those commuters who travel long distances on a daily basis,' said Councillor Quintas.

The new fares will apply as from 1 July 2026, upon Council approval of the draft budget on 29 June 2026.

WINTER READINESS PROGRAMME TO BOOST FLOOD PREVENTION AND CREATE JOBS

As we are in Cape Town's rainy season, the City's Urban Waste Management (UWM) Directorate is ramping up efforts to help reduce flood risks, protect communities and prevent pollution by actioning its annual Winter Readiness Programme. Some R42,7 million will be invested in this programme this year, which provides extra cleansing services in areas most vulnerable to flooding and illegal dumping.

25 June 2026

As part of the lead-up to the initiation of the annual UWM Winter Readiness Programme, Mayoral Committee Member for Urban Waste Management, Alderman Grant Twigg joined cleansing teams in Doornbach, Dunoon, on Monday, 22 June to clean one of the many illegal dumping hotspots city-wide.

The programme, which will run from 1 July 2026 to 30 September 2026 this year, focuses on removing waste that may end up in stormwater infrastructure and contribute to blockages/flooding during heavy rainfall events. This includes the following activities:

- Removing illegal dumping
- Street sweeping
- Litter picking in open spaces, gullies, verges and along riverbanks
- Installing and servicing street litter bins
- Washing streets with water tankers where required
- Mechanically sweeping highways and byways

The programme will also create nearly 2 281 temporary employment opportunities through the Expanded Public Works Programme (EPWP) over this period, providing much-needed work opportunities for our most vulnerable residents.

'The Winter Readiness Programme plays a critical role in preparing Cape Town for the challenges linked to winter rainfall. Litter and illegally dumped waste are often washed into stormwater systems and sewer drains, causing blockages that can lead to flooding and damage to infrastructure. 'By proactively clearing dumping hotspots, cleaning streets and maintaining critical drainage points, we can help reduce the risk of flooding, improve the environment and ensure that municipal resources are directed where they are needed most. 'These efforts also help protect our rivers, waterways and coastline by preventing litter from entering stormwater channels and ultimately reaching the ocean.

'While the City continues to invest significantly in keeping Cape Town clean and resilient, residents also have an important role to play. We urge everyone to get rid of waste responsibly, use available bins and City Community Recycling Centres (Drop-off facilities),

and report illegal dumping so that swift action can be taken,' said the City's Mayoral Committee Member for Urban Waste Management, Alderman Grant Twigg.

DATA BASE UPDATING AND SCHEDULED VISITS:

Please contact the CID office should any of your details change, especially the after-hours contact person's name and number. I cannot stress the importance of us being able to reach you in an emergency. In the past the CID was able to assist business owners with incidents of flooding and fires where if the owner could not have been reached the damage could have been so much worse.

Should you be new in the area or just **wish to find out more about what the CID does for you**, feel free to contact the CID office and set up an appointment. In this manner we can speedily address matters that might be of concern, enlighten you of what we can and will do to assist you and what falls outside the CID mandate.

CID CONTROL ROOM CONTACT INFORMATION

For any **emergency situations/assistance** kindly contact the **CID 24/7 Control Room** on **021 932 4800** or **072 197 5001** who will dispatch the necessary assistance.

Should you have any enquiries / suggestions/ complaints, please feel free to contact Tracy Engelke (CID Manageress) and/or Zaandria Liebenberg (CID assistant) at the CID office on 021 932 4799 (office hours) or at undermentioned email addresses.
